FOCUSSING ON SKI BOOTS ONLY

Dalbello is an Italian ski boot specialist founded in 1974 by Seniore Dal Bello, a true shoemaker. Being located next to the mountains in a place called Asolo, we are the only manufacturer that still produces every single product in its own factory here in Italy.

Italian sensitivity for unique and advanced design, technological solutions and the passion for the boot made Dalbello a top performing brand, winning 10 Olympic medals in 2014 and supporting top athletes in freeriding and world cup racing.

Behind the victories is a hugh team of outstanding athletes who have a lot of influence on the product and its performance. Their experience and daily use lead to a permanent progression and continuous improvements. The team works very close with our inhouse engineers and designers and is a true member of the global Dalbello family.

The power of our „Italian family“ is an important part of our corporate culture. We are very proud about these unique values and the people supporting our ideas and vision.

Come join us in the mountains and be part of #DAFAMIGLIA

NEW PRODUCTS

DS ASOLO FACTORY

- // Extremely light
- // 100% customizable shell and liner
- // Precise fit and higher support
- // New flex and velcro strap

The brand new DS Asolo Factory edition with Power Cage and premounted GripWalk features only the best components Dalbello has to offer. The new shell and liner is 100% customizable and adjustable to every riders' needs. The super light construction with redesigned flex and a variable ramp angle offers a precise fit (98 mm) and due to its increased stiffness an even higher support for top on-piste performance.

PANTERRA LINE

- // Variable Ramp Angle & Canting System
- // Miling cover technology
- // Adaptable collar design

It is a subtle art to improve a legend. Adding the Power Cage principals plus a variable ramp angle and canting system to the proven design of the Panterra allowed us to preserve the legendary fit. But at the same time the new construction with 3D Grip Texture features improved comfort and handling as well as a lighter weight and increased power transmission. And of course the Panterra line comes with premounted Grip Walk soles.

LUPO AIR

- // Grilamid Air
- // Interlock
- // Cable closing system
- // Vibram Soles
- // Ratchet Buckle
- // Supportive Liner

Very lightweight and competitive freeride touring boot with Grilamid shell and Vibram soles. The reduced overall weight increases the skiing and walking performance and the especially developed liner allows a more comfortable handling. The improved fit also supports the skiing performance.

READY TO SKI

OVERLAP DESIGN

- + POWER
- + PRECISION
- + CONTROL

BEHAVIOR

- Immediate power transmission
- Shorter range of flex
- Traditional powerful rebound
- Precise control
- Traditional skiing style primarily on-piste / where extreme precision is needed

SPECIFIC TECHNOLOGY

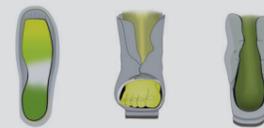

DRIVE & CONTROL

More volume in the toe box for:

- Better fit
- Better blood circulation
- Warm feet and toe

Precise wrapping heel zone for:

- More control
- Direct power transmission
- More sensitiveness

CABRIO DESIGN

- + VERSATILITY
- + FLEXIBILITY
- + LESS EFFORT

BEHAVIOR

- Smoother and progressive power transmission
- Long range of flex
- Dynamic rebound
- Excellent shock absorption
- Quicker from edge to edge
- All terrain

SPECIFIC TECHNOLOGY

DYNALINK

- Independently functioning heel / instep closure assembly
- Minimizes foot sliding, heel lift and boot shell distortion during flex effectively

KINETIC RESPONSE TONGUE

- Highly resilient polyamide flex ribbed tongue
- Stays in permanent contact with the leg
- Improved responsiveness and control
- Interchangeable flex stiffness

SKI-HIKE

- Burly cuff lock mechanism frees the upper cuff from the lower shell
- Long range of motion for highly functional hiking and climbing
- No compromise on skiing performance due to unique Cabrio design
